HOW TO USE THE E-Z-GO SERVICE PARTS MANUAL

This manual is divided into several sections:

1. **GENERAL INFORMATION**
2. **ILLUSTRATED PARTS BREAKDOWN FOR ELECTRIC AND 4-CYCLE GASOLINE POWERED TRUCKS**
3. **APPENDIX**

The first section, **GENERAL INFORMATION**, contains the following informations:

1. **WARRANTY INFORMATION**
2. **GENERAL INDEX**
3. **HOW TO USE THE E-Z-GO SERVICE PARTS MANUAL**

The second section, **ILLUSTRATED PARTS BREAKDOWN (IPB)**, contains illustrations and parts lists for all systems of the electric and 4-cycle gasoline powered trucks.

The third section, **SERVICE ACCESSORIES AND SPECIAL TOOLS**, contains a listing of E-Z-GO service accessories and special tools that may be purchased from the company to aid in the servicing of the vehicle.

USE OF THE MANUAL

To use this manual, consult the **GENERAL INDEX** (located in the first section) to locate the information or illustration required.

Introduction of some revisions varies due to supply of components; therefore, it is possible that various combinations of components may be found that are not directly reflected by each illustration. Consult the illustration that best suits your situation and contact the Service Parts Department. It is important that the serial number of your vehicle and its model number be supplied to Service Parts when ordering any replacement components.

Locate the serial number plate (see Body and Associated Parts located in the IPB section of this manual for its location) and note the complete number shown on the plate.

Each system is listed in the index and has an alphabetical prefix. The illustration always appears first and is followed by its related parts list. Additional illustrations and parts lists with the same prefix indicate significant changes that have taken place since the last issue.

Note that many alphabetical prefixes are omitted. These prefixes have been assigned to systems that are not relevant to your vehicle. The index lists all relevant sections that pertain to your vehicle.

HOW TO USE THE E-Z-GO SERVICE PARTS MANUAL

1. WHEN THE PART NUMBER IS *NOT* KNOWN.

- a. Determine the function and application of the part required. Turn to the General Index and select the most appropriate title.
- b. Turn to the page number indicated and locate the desired part on the illustration.
- c. From the illustration, obtain the item number assigned to the desired part. Refer to the accompanying description for specific information regarding the part.

2. IF YOU KNOW THE PART NUMBER.

Locate the part number or description in the appropriate column on the parts list page.

NOTE: It is suggested that you confirm that the part selected is correct by verifying it with the pictorial representation on the illustration page.

Should an asterisk (*) appear in the part number column on the parts list page, read upwards until a part number is found. The part number is the *lowest* assembly sold by E-Z-GO and the asterisk (*) indicates that the part depicted is not available for sale by E-Z-GO.

NOTE: Descriptions are *indented* under the assembly that they are used on. That assembly is, in turn, listed under the assembly that it is used on. This process is repeated until the highest or *final assembly* is reached.

To facilitate the maintenance and repair of vehicle, an Operation and Service Manual is available from the E-Z-GO Service Parts Department.
